

PakDev - Frontend Developer

pakdevstudios@gmail.com | github.com/pakdevstudios | Pakistan - Gulf remote ready

Professional Summary

Frontend developer focused on premium dashboards, SaaS interfaces, CRM systems, multilingual platforms, responsive layouts, API-connected UI, and production-level frontend implementation using React, Next.js, Tailwind CSS, Framer Motion, and Shadcn-style components.

Core Skills

Frontend	HTML, CSS, JavaScript, Tailwind CSS, React.js, Next.js
UI Libraries	Shadcn UI, Radix UI, Framer Motion, Swiper, React Slick
Tools	Firebase, APIs, DynamoDB, GitHub, Vercel, Figma

Experience Highlights

- Built responsive dashboard interfaces, CRM workflows, admin panels, appointment modules, and service request screens.
- Implemented localization-ready UI structures for English and French business applications.
- Created reusable components, premium dark UI layouts, skeleton states, filters, cards, tables, and mobile navigation.
- Optimized frontend user experience with cleaner spacing, faster perceived loading, and strong responsive behavior.

Education

BSCS, Agriculture University Peshawar (AUP), 2024
